Intern Project 1: Data Cleaning & Preparation

Document: Data Audit & Change Log

Date: July 17, 2026

Overview:

This document serves as the official change log for Project 1. It outlines exactly what was changed and why, ensuring stakeholders have full visibility into how the raw dataset was transformed into a reliable source of truth.

Goal Achieved:

Clean a raw dataset by handling missing values, duplicates, and incorrect data.

Transformations Log;

STEP	DESCRIPTION	IMPACT	STATUS
STEP 1	Imputed missing values in 'CouponCode' using the text 'NOCOUPON'.	Preserved 309 records.	RESOLVED
STEP 2	Standardized the 'Date' column to DD-MM-YYYY.	Ensured 0% error rate on dates across all 1,200 rows.	RESOLVED
STEP 3	Applied Proper Case and trimmed whitespace for categorical text columns.	Standardized text format.	RESOLVED
STEP 4	Standardized 'UnitPrice' and 'TotalPrice' to strict numeric precision (2 decimals).	Ensured financial data accuracy across all transaction records.	RESOLVED
STEP 5	Standardized 'TrackingNumber' using Upper Case and trimmed whitespace.	Unified tracking formats and eliminated invisible spaces.	RESOLVED
STEP 6	Conducted Integrity Audit: Deduplicated dataset using 'OrderID' as the primary key.	0 duplicates found/removed.	RESOLVED
